RAPTOR 3

wilson

Raptor 3 is a high quality product that goes hand in hand with an aesthetically pleasing classic design. Raptor 3 is technically and visually a perfect match for the other speakers of the Raptor series. It can be configured as a home theater system or as a stand-alone small Hi-Fi speaker system, where it works best.

Raptor 3 is available in traditional colors: white and black, which ensures perfect blending in with both balanced and expressive interior colors of your home. The speaker is finished with an elegant wooden structure, equipped with Bass Reflex cabinet type and single speaker terminals.

Solid and streamlined cabinet with back firing Bass Reflex offers high efficiency in the low frequency range.

High quality housing covered with aesthetic layer of modern vinyl, with a wood-like surface finished with a slight gloss on the entire surface of the side, top and back walls. The material provides long-lasting resistance to colour change and unwanted effects of light, which is especially important for a white finish, when the columns are placed in very sunny rooms.

Together with the available material grilles in classic black, mounted on traditional mounting pins, the entire column looks attractive and does not disturb the interior with its presence.

Two-way construction in a classic form is equipped with a tweeter: 1" (25mm) with soft dome and powerful woofer/midrange drivers: 2x 5", providing a versatile depth of experience in both stereo and home theater.

Cabinet: White with wood grain texture
Grille: black

GREAT AND AFFORDABLE CHOICE

It is a good choice for users looking for an inexpensive speaker for an additional system in a second room or office. These speakers will work well with a wide range of small stereo systems.

These speakers are a guarantee of powerful, yet clear and crisp sound. Their advantages will be appreciated by lovers of movie premieres, fans of sports struggles and admirers of dynamic action films.

Your own home theater set is also the satisfaction of your family and close circle of friends. Raptor is the shared joy of all lovers of good audio quality.
